MSC Reserve Requirements

- MSC active and reserve units must prepare for war, small-scale contingencies, operations, and exercises.
- MSC reserve units do not augment MSC port operations capabilities upon arrival in theater; they create them and as such are autonomous and self-deploying.
- They have critical OPLAN assignments, and must be fully prepared to rapidly deploy and carry out assigned tasks.

MSC Reserve Support

- MSC reservists provide 85% of our shore-based military manpower world-wide
 - ⇒ 1041 total billets/29 units
- Additionally, MSC has oversight for:
 - Naval Control of Shipping(NCS)
 - ⇒ (500 billets/17 units)
 - Cargo Afloat Rig Teams (CART)
 - ⇒ (350 billets/ 7 units)

MSC Global Support of DOD - FY00
